# Why Replace?

# Restore!

## SAVE BIG \$\$\$

Replacing your bathtub involves not only the cost of the new tub, but the added expense of replacing wall and floor tile, wall board, plumbing and hardware. Refinishing with *Glas-Tech 9000™* quickly transforms your tub to a sparkling factory-new finish.

Refinishing your existing bathtub with the *Glas-Tech 9000™* system is the most economical way to revitalize your bathroom and you will realize spectacular savings, often as much as 80% over replacement!

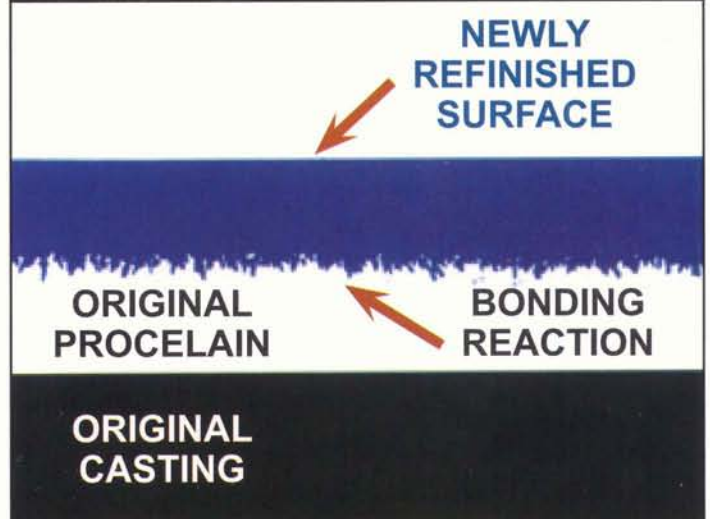

## HOW DOES IT WORK?

*Glas-Tech 9000™* is a remarkable time-tested method developed specifically for bathroom refinishing. The secret lies in the ability of the compounds to fuse on a molecular level to the substrate, becoming a permanent part of the original surface, unlike bath liners.

Your refinished bathtub is easy to clean and the *Glas-Tech 9000™* process ensures the most protection against impacts, stains, and chemicals delivering many more years of reliable service.

## THE GLAS-TECH 9000™ PROCESS

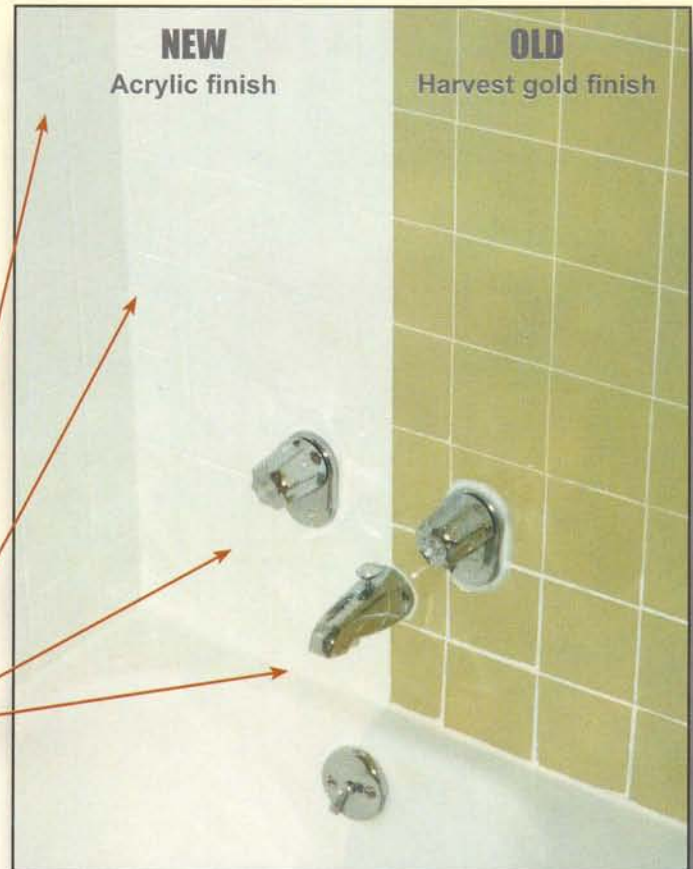

# Refinish Ceramic Tile

*Glas-Tech 9000™* applied on your ceramic tile creates a protective non-porous barrier to eliminate unsanitary mold and mildew buildup, promoting a clean, fresh environment for your family and guests.

Refinishing your existing ceramic tile seals in hard to keep clean grout lines and protects against water damage and dry wall rot. Using the *Glas-Tech 9000™* process is cost effective... with savings of up to 50% over replacement!

**Save 50% over replacement!**  
**Maintenance free groutlines**

# Refinish Your Tub & Tile Together

**PERMANENT WATERPROOF FINISH ELIMINATES CAULKING ON TUBS AND WALLS.**

Refinishing your bathtub and ceramic tile or fiberglass wall surround together at the same time is the most economical method to quickly upgrade your bathrooms with minimal downtime. With *Glas-Tech 9000™*, you eliminate the need to re-grout or re-caulk which means less work for you!

The durability of *Glas-Tech 9000™* combines long term economic value and very low maintenance, making it the most popular choice among homeowners, hotels, and apartment managers nationwide. Even bathtub manufacturers use *Glas-Tech 9000™*!

# Commercial Projects

Since 1978, *Glas-Tech 9000™* has built a reputation for quality and performance on all types of applications with architects, real estate professionals, and general contractors on commercial, government, and residential projects.
